Purpose:	To present an update to the Board
Confidentiality Level & Reason:	N/A
Medium Term Plan Ref:	Aim 2: Maintain our reputation and position at the leading edge of performance and quality Aim 3: Enhance our reputation for excellent financial management and efficiency
Key Issues Summary:	The Trust has recorded a surplus of £15.013m before exceptional items for the financial year ending 31 March 2010. This represents an adverse variance of (£87,000) against the budgeted surplus of £15.100m for the year. This position excludes an impairment loss of £1.232m on the Learning Hub which reduces the overall surplus to £13.781m.
Recommendations:	The Board of Directors is asked to receive the contents of this report

THURSDAY 29 APRIL 2010**

FINANCE AND ACTIVITY PERFORMANCE REPORT FOR THE PERIOD ENDING 31 MARCH 2010

PRESENTED BY THE DIRECTOR OF FINANCE

1. Introduction

This financial report covers the 2009/10 accounting year from 1 April 2009 to 31 March 2010. The report, which has been prepared under International Financial Reporting Standards, contains information on the three key financial statements; the Statement of Comprehensive Income (previously the Income and Expenditure Account), the Statement of Position (Balance Sheet) and the Cash Flow Statement.

The report provides detail of operating variances during the month and expenditure against the Capital Programme. Activity data is also provided for the first eleven months of the financial year.

The Trust has budgeted for a surplus of £15.100m in 2009/10 as set out in the Financial Plan approved by the Board of Directors. At the end of twelve months an actual surplus of £15.013m has been achieved before 'exceptional costs' (impairment loss). This represents an adverse variance of (£87,000) against the plan and a deterioration of (£181,000) against the £94,000 favourable variance reported at month eleven.

The Trust has now received the final report from the District Valuer (DV) confirming the results of the interim revaluation exercise for 2010/11. This confirms that the Learning Hub, which cost £2.397m, has been valued at £1.165m using the Modern Equivalent Asset basis. As the Hub is a new building it does not have an existing revaluation reserve and therefore the entire difference in value (£1.232m) is charged against the income and expenditure account as an impairment loss. This is a non-cash transaction (i.e. a technical accounting adjustment rather than a physical payment by the Trust) and is excluded by Monitor from the calculation of the Financial Risk Rating. However, the overall position reported in the Trust's accounts will be a surplus of £13.781m.

The Financial Risk Rating (FRR) for 2009/10, issued by Monitor, remains at 4 (the second best available rating) based on the published results of the first three quarters and self assessment of quarter four. This is below the rating of 5 achieved throughout 2008/09 due largely to changes in the way that the liquidity metric is calculated.

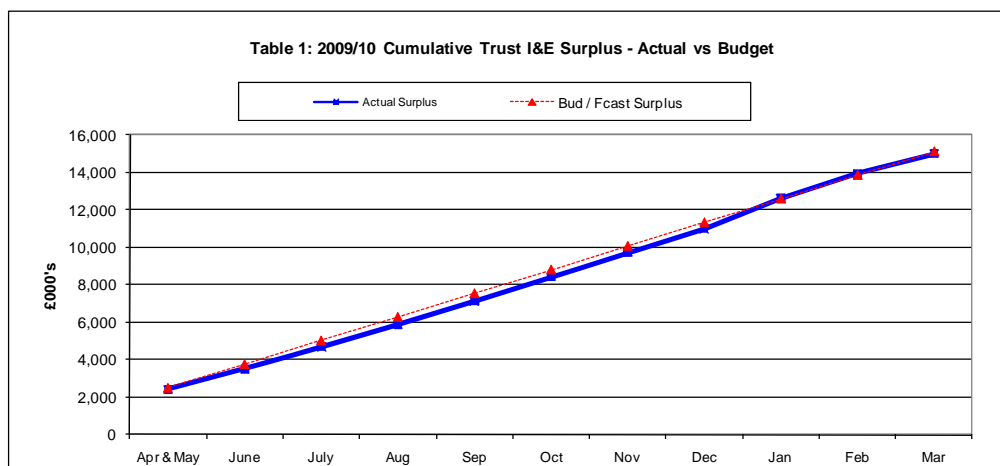

2. Summary of Financial Position

2.1 Year to Date Position

The trend line in Table 1 shows the cumulative income and expenditure (I&E) surplus achieved compared against budgeted levels at the end of each month. As stated above, the Trust has recorded a surplus of £15.013m, excluding impairment losses, for the financial year ending 31 March 2010, compared to a budgeted value of £15.100m for the period, equating to an adverse variance of (£87,000).

It is necessary for the Trust to deliver a surplus broadly in line with its planned value in order to meet the future cost increases linked to the New Hospital and generate the cash required to fund the investment in new major medical equipment without recourse to borrowing. Full achievement of plan would result in an EBITDA (Earnings before Interest, Tax, Depreciation and Amortisation) margin (a measure of profitability) of 6.3% in 2009/10. This is slightly below the average margin planned by the FT sector in 2009/10 of 7.6%.

Table 1 – I&E Surplus vs Plan 2009/10

The statement of comprehensive income appears in Appendix C. Table 2 below shows the summarised revenue transactions of the Trust for the accounting period. An income summary appears in section 3.1 below. Operating expenses are shown in 3.3 below.

3. Income and Expenditure

3.1 Income Analysis

The overall income position shows a net £12.9m over-recovery against budget for the year to date. The majority of the variance relates to NHS Clinical income and reflects additional cost per case funding for high cost drugs and devices which are excluded from tariff, less the underperformance on the core contract (see 3.2). Non-NHS Clinical Income includes private patients, the RCDM treatment contract and RTA Income. Other income includes education, research and development, non-patient care services provided to other bodies (SLAs), trading income and other ad-hoc sources. The majority of the over-performance in this area relates to RCDM income in respect of non patient care activities for which the trust has a corresponding expenditure commitment.

3.2 NHS Clinical Income / Activity

Table 4.1 compares the 2009/10 monthly admitted patient care activity against target levels. This shows that total PbR (Payment by Results) spells remain below plan during February and for the year to date. Non-PbR FCE's remain broadly in line with plan during the month and year to date.

Outpatient activity is shown in Table 4.2. This shows continued over-performance against target for new attendances, follow up attendances and outpatient procedures.

Table 4.1 – Trust Inpatient Activity

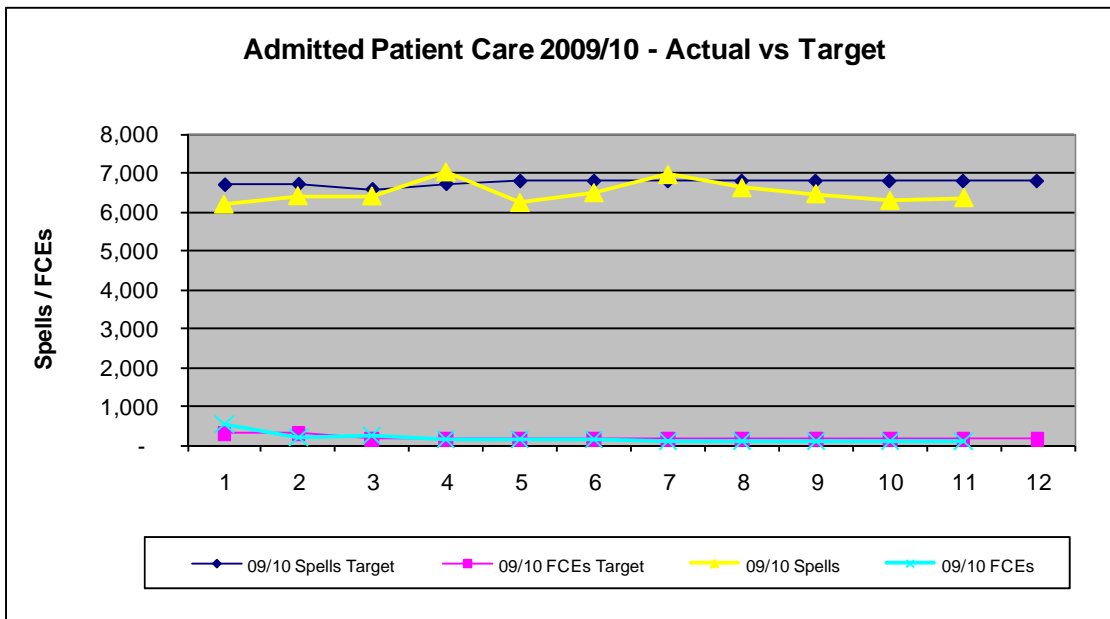

Table 4.2 – Trust Outpatient Activity

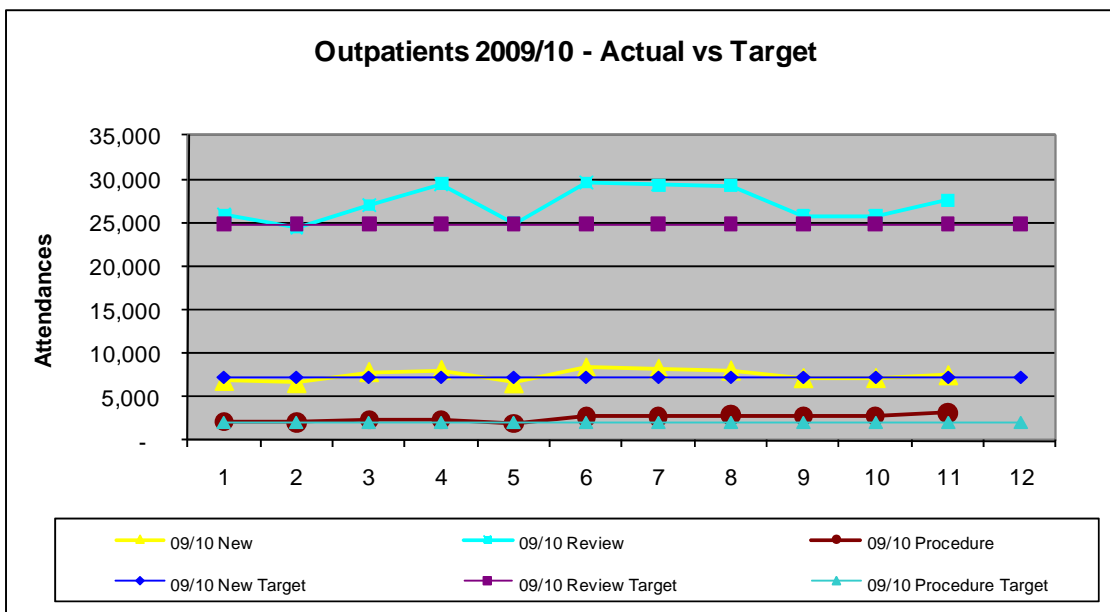

Table 5 below summarises the cumulative variance by Division and Point of Delivery (POD) against the healthcare income targets included within the 2009/10 Financial Plan. In overall terms core healthcare

income is (£1.6m) below plan for the eleven months to 28 February 2010, due to underperformance against the target for inpatient PbR activity. This excludes cost per case activity which is ahead of plan leading to the overall over-recovery of NHS clinical income shown above. Further detail of activity against plan by specialty and by Commissioner is included as Appendix G.

3.3 Expenditure Analysis

A subjective analysis of expenditure variances is set out in Table 6 below. This shows a total variance of (£15.6m) against a budget of £452.9m for the year to date excluding depreciation and PDC dividends. The main overspend is due to increases in High Cost Low Volume treatments (Drugs and Clinical Supplies) and is balanced by a corresponding increase in NHS Clinical Income (see 3.1).

3.4 Cost Improvement Programme

The Trust's Financial Plan for 2009/10 includes total efficiency savings of £12.1m. Cumulative quarterly progress against this target is set out in the table below. This shows that a shortfall of (£772k) at quarter 4 and therefore in aggregate terms 94% of planned savings have been achieved for the year. This represents a further improvement against quarter three performance (89%) and is slightly ahead of the previous forecast outturn (93%). The majority of the slippage is attributable to Division's 1 and 4 with non-delivery across a number of activity and procurement based schemes in the first half of the year. Plans are in place to ensure that the target is achieved on a recurrent basis from 2010/11.

4. **Divisional Analysis**

In total, operational budgets, excluding healthcare income, have recorded an adverse variance of (£556,000) during March leading to a net overspend of (£4,740,000) for the 2009/10 financial year. This is partially balanced by the release of £1,871,000 from the General Contingency Reserve.

As in recent months the largest cost pressure across the divisions remains on medical pay budgets which have overspent by (£283k) in total during the month. Within this (£142k) relates to Consultants with particular pressures in A&E (£34k), Neurosurgery (£22k), and Dermatology (£41k). This reflects a combination of additional waiting list payments and premium costs incurred for agency locums, although an appointment has now been made in Dermatology. The balance of the medical pay overspend (£141k) relates to junior medical staff with additional costs in A&E (£29k), Neurosciences (£19k), Trauma (£62k), Burns and Plastics (£21k). This expenditure is primarily attributable to the use of agency locums to cover gaps in the rotas.

There have also been overspends across Nursing budgets during the month totalling (£95k) with the main pressures in Theatres (£73k), Livers (£31k), Medicine / Elderly Care (£70k), and Trauma (£55k) partially offset by underspends elsewhere. This reflects increased usage of bank and agency nurses due to sickness and a significant increase in the rates charged by external agencies. Other notable issues include continued non-pay overspends in Theatres (£197k) due largely to a combination of activity related costs (£72k) and stock adjustments (£63k) and Laboratories (£134k) which is slightly above trend due to adverse stock movements.

These pressures have been partially mitigated by favourable variances elsewhere including £55k due to Liver Transplant over-performance, £165k in Critical Care due to additional income, and £147k in Medical Physics due to vacancies.

5. Statement of Financial Position

The Statement of Financial Position (formerly the Balance Sheet) states the value of assets and liabilities of the Trust. The upper part of the statement shows net assets after deduction of both short and long term liabilities. The lower part identifies the sources of finance or equity used to fund the net asset position. The Trust's Statement of Financial Position at 31 March 2010 is shown in Table 9 below.

6. Capital Programme

The Trust's Capital Programme for 2009/10 was approved at the April 2009 Board of Directors meeting with a total value of £22.6m for the year, excluding planned expenditure of £1.0m on the non-retained estate which is funded from revenue sources. A number of changes to this plan were approved at the October 2009 Board of Directors meeting resulting in a revised Capital Programme for 2009/10 of £21.6m.

Actual capital expenditure to 31 March 2010 is £18.4m which is £3.2m below the revised plan as shown in Table 10 below. The main areas of slippage relate to expenditure associated with the Retained Estate and equipment replacement schemes. A summary of expenditure against each scheme is provided in Appendix D and further detail is included in the separate paper on

the 2010/11 Capital Programme to be presented to the April Board of Directors meeting.

Table 10 – Capital Expenditure against plan

7. Analysis of Current Assets (excluding Inventories and Cash)

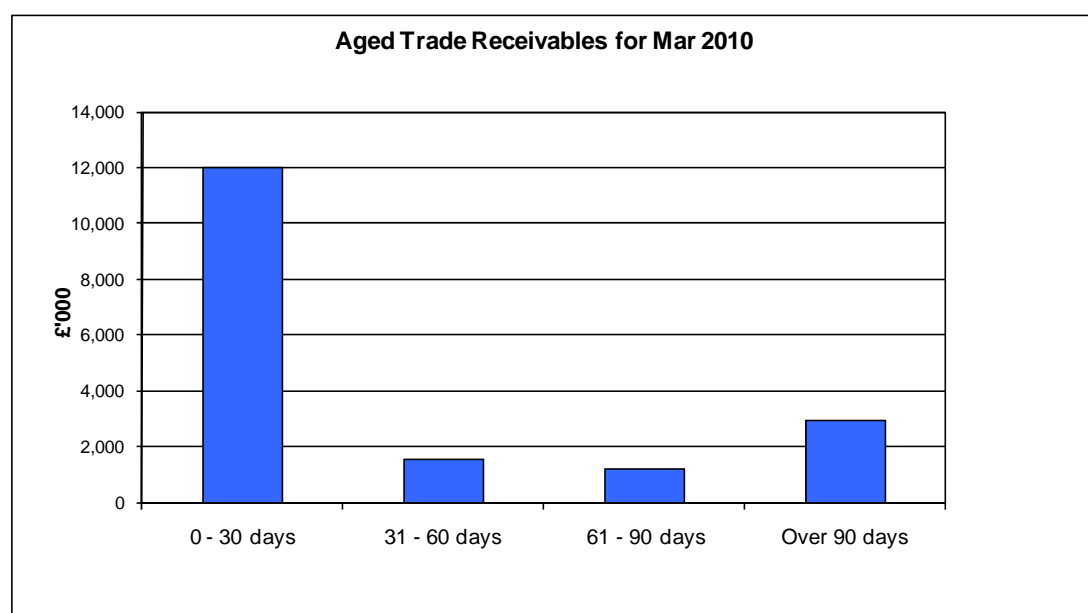

The total value of current assets excluding inventories and cash due within one year is £35.9m at 31 March 2010, as shown in the Statement of Position above. An analysis of the balance by type is shown in table 11 below. This shows that £17.9m relates to the sales ledger balances (trade receivables) i.e. outstanding (unpaid) invoiced income.

An analysis of outstanding invoiced debt by age is included with this report at Appendix E and is summarised in table 12 below. This shows that over 90 day debt has increased from £2.2m at 28 February 2010 to £2.9m at 31 March 2010. The main components of the outstanding amount comprise charges for delayed discharges to Birmingham City Council (£0.5m), outstanding SLA charges to other providers (£1.0m) including HEFT (£0.2m) and ROH (£0.4m), and balances with PCTs related to 2009/10 healthcare income (£1.1m).

8. Cash Flow

A cash flow statement appears at Appendix F and this provides an analysis of actual and forecast cash received and paid out. Table 13, below shows the actual cashbook balance at month end compared against the minimum and maximum daily bank balances during the month and a twelve month rolling average daily bank balance.

The actual cashbook balance at 31 March 2010 is £96.3m which is £6.1m above the planned position. The majority of the difference is due to the slippage against the Capital Programme.

The twelve month rolling average bank balance shows that the underlying cash position of the Trust remains stable.

Table 13 – Cash Flow

9. Working Capital Facility

The Trust’s overdraft facility has not been used to date and is unlikely to be required in the immediate future. Therefore the value of this facility has been retained at £1.0m for 2009/10.

10. Monitor Ratios

10.1 Borrowing Ratios

The Trust has not yet utilised the borrowing powers available to Foundation Trusts, therefore the borrowing ratios set out in the Prudential Borrowing Code are not currently applicable.

10.2 Financial Risk Rating

The Trust’s Financial Risk Rating for 2009/10 remains at 4 based on the published results of the Annual Plan and the first three quarter’s monitoring and self assessment of quarter 4. This reflects a reduction against the rating of 5 achieved throughout 2008/09 due primarily to changes in the calculation of the liquidity metric. The rating is set between 1 (worst) and 5 (best), based on a series of financial metrics and informs the value of Trust’s Prudential Borrowing Limit.

11. **Conclusion**

The Trust has reported an income and expenditure surplus of £15.013m for the financial year ending 31 March 2010. This represents an adverse variance of (£87,000) against the planned surplus of £15.100m for the year. This position excludes an impairment loss of (£1.232m) against the Learning Hub and therefore the overall surplus is £13.781m.

12. **Recommendation**
